Backend Developer with hands-on experience in Node.js, REST APIs, and databases like MySQL and MongoDB/**Firestore**. Built scalable, **data-driven** applications with a focus on performance and clean architecture. Currently exploring **AI**, automation, and workflow-driven solutions.

## EDUCATION

Bachelor of Technology in Computer Science & Engineering (2022–2026)

**ABES Institute of Technology, Ghaziabad** — CGPA: **8.7/10**

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (Java), Database Management Systems (MySQL), **Python** Programming.

Senior Secondary Education (CBSE, 2021) – **Rishabh Academy School, Meerut** | **89.6%**

Secondary Education (CBSE, 2019) – **Rishabh Academy School, Meerut** | **96%**

## WORK EXPERIENCE

### Software Development Intern | Bluestock Fintech

Aug 2025 - Sep 2025

- Developed and maintained **RESTful APIs** using Node.js and SQL for financial analytics system
- Optimized database queries, improving **performance** by **15–20%**.
- Built backend modules for data processing and reporting
- Tested and debugged APIs to ensure scalability and reliability
- Collaborated with frontend teams for seamless API integration

### MERN Stack Intern | Zidio Development

Jun 2025 - July 2025

- Built full-stack features using React, Node.js, and MongoDB
- Developed REST APIs and integrated them with frontend applications
- Implemented Excel data processing and storage workflows
- Improved backend performance and data handling efficiency
- Worked in a collaborative development environment using Git

## PROJECTS

### SmartEdu AI: Intelligent Learning & Performance Platform |

React.js, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MongoDB, OpenAI/Gemini API

- Built an **AI-powered** platform to manage student data and generate performance insights
- Developed scalable REST APIs using Node.js and Express.js with MongoDB for data storage
- Designed responsive UI using **React.js**, Tailwind CSS, and **Redux** Toolkit
- Integrated **OpenAI/Gemini API** to provide AI-driven insights and **chatbot** functionality
- Enabled **real-time** analytics and **data visualization** for tracking student performance

### Flood Management & Prediction Application |

Python, Node.js, React, MongoDB, Machine Learning, Pandas, NumPy, REST APIs

- Developed a **machine learning**-based system to predict flood risk using historical rainfall data
- Trained an **XGBoost** model to identify patterns and forecast high-risk flood zones with **89% accuracy**.
- Integrated real-time data via APIs for continuous **monitoring** and **prediction** updates
- Built **dashboards** to visualize risk levels and flood-prone areas
- Enabled early warning alerts to support **data-driven disaster management**

## TECHNICAL SKILLS

- Languages: JavaScript, Python, Java, C++
- Frontend: React.js, Redux Toolkit, HTML, CSS, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs
- Databases: Firebase, MongoDB, MySQL
- Cloud & DevOps Fundamentals: AWS, **CI/CD**
- Tools: Git, GitHub, Thunder Client, VS Code
- AI/ML: Machine Learning (Pandas, NumPy), LLM APIs (Gemini), Prompt Engineering

## ADDITIONAL INFORMATION

### Certifications

- **Google Cloud** – Data & Cloud Fundamentals (2025), React Development – CRC ABESIT, Core Java – Softpro India, **Generative AI** – Infosys Springboard, **Artificial Intelligence with Python** – Infosys Springboard

### Achievements

- **Hacknovate 6.0 Winner** – Girls Category, Solved 250+ problems on CodeChef (2★ army\_echo\_85), Completed 160-days GFG DSA Challenge, Solved 60+ problems on LeetCode, **Smart India Hackathon 2025** (Internal Level, Top 50 teams)
